WORK EXPERIENCE

Frontend Developer
ALPHA NET

09/2023 - Present   *Mohali Punjab*

Developed a Fintech AI-powered loan origination system for major US-based credit unions, streamlining credit data processing and automated credit scoring. Utilized cutting-edge technologies, including React, Material UI, Node.js, Docker, Jenkins, and AWS Amplify, to build a scalable and efficient solution. Implemented AI-driven tools for deployment automation, optimized CI/CD pipelines, and enhanced reporting tools and SaaS dashboards for real time financial insights.

Projects
- Scoreboard Application
- SaaS Dashboard
- LULU generative AI tool
- App to convert HTML to PDF

Development and UI&UX intern
Smart programming's

09/2021 - 01/2022   *Mohali Punjab*

Smart Programming is a leading educational organization with extensive experience in IT training and online courses. Founded by experts with rich backgrounds in both the Indian and international IT markets, our goal is to deliver high-quality IT education.

Project/Tasks
- Developed and optimized React applications, focusing on component-based architecture and state management.
- Contributed to UI/UX design, ensuring user-friendly interfaces and smooth experiences.
- Implemented responsive designs to improve performance across various devices.
- Created a Food order App project, enabling users to log in, select pizzas, place orders, and track order status.

EDUCATION

Bachelor of Computer Science Engineering
Rayat Bahara University

*06/2021 - 06/2024*   *Chandigarh*

Diploma in Computer Engineering
Govt Millennium Polytechnic

05/2018 - 05/2021   *Chamba (HP)*

SKILLS

React · JavaScript · HTLM · CSS · Tailwind · SASS · TypeScript · SQL · Nodejs · RESTful API · Redux · MUI lib · MySql · Vite · ESlint · Bootstrap · UI/UX · Figma · git · Github · Jenkins · Docker · swagger · Jira · confluence · canva · Adobe · Power BI

PROJECTS

Fintech AI Loan Origination System
- **Tech Stack:** React.js, Material UI, Node.js, Docker, Jenkins, AWS Amplify, AWS Cognito.
- Developed an AI-powered loan origination system to automate credit scoring and processing for US-based credit unions. Implemented secure authentication, AI-driven data processing, and real-time financial insights, improving efficiency by 40%.

WorldWise
- **Tech Stack:** Reactjs, javaScript, Typescript, React Router, Leafleft JS library mobile-friendly interactive maps
- WorldWise is a React application that allows users to explore cities from around the world. It provides information about various cities, including their locations on a map, details about each city, and the ability to create and delete cities.

GitHub Profile Tracker
- **Tech Stack:** HTML, CSS, JavaScript, RESTful API integration
- GitHub Tracker is a project that leverages the GitHub API to provide detailed user information. By entering any GitHub username, the application fetches and displays comprehensive data about the user, including the number of followers, following, repositories, and additional relevant statistics.

CERTIFICATIONS

React Ultimate
React Certification from Udemy, covering frontend development principles and best practices.

UI/UX
UI/UX Design Certification from Udemy, focusing on user experience principles and design strategies.
